

Capital Credits

As a not-for-profit electric cooperative, when SDCEA's annual revenue exceeds costs, that positive margin is used as operating capital — and over time, it may be returned to you as capital credits when our financial position and board policy allow. SDCEA returns these margins to our members (account holders) rather than to outside shareholders.

Active members who had service during an approved year will see a bill credit applied to their November bill.

Former members will receive a refund check — so if you move, please make sure we have your current mailing address on file.

In December 2025, we retired \$269,521 in capital credits covering the years 1998 and 2005. This included account credits to 3,563 active accounts and refund checks mailed to 3,676 inactive accounts.

Some refund checks were returned due to invalid addresses or were never cashed. If you recognize a name on the list below, please ask that person — or their heirs — to contact us. Members also have the option to donate unclaimed funds to our annual scholarship program, the Power of Change program, or the Shine Your Light program.

How can a refund and a rate increase happen in the same year? Capital credit refunds are a return on past investments — tied to the poles, wires, and infrastructure funded during the years those credits were earned. Current rates are set separately to cover system investments that are necessary today. The two are not in conflict, they just reflect different time periods.

If you have questions or if you know someone on the list, send an email to info@myelectric.coop. Alternatively, call us toll-free at 844-395-2412.

LIST BEGINS ON PAGE 6

CAPITAL CREDITS are profits returned to you, our members.

Learn more at
myelectric.coop/capital-credits-explanation/

SDCEA tracks **how much you pay** for service during the year.

At the end of the year, SDCEA closes its books and **determines if revenues exceed expenses**, called profits.

SDCEA's **profits are allocated to members** as capital credits, based on how much you paid for service during the year.

As SDCEA's financial conditions allow, the board of directors may elect to pay a portion of these capital credits **back to members**.

If you currently have service with SDCEA, your **capital credits will appear on your November bill**. (If you are no longer a member, your capital credit check is mailed in December.)

Rate Changes Begin July 1

SDCEA is moving to a new rate structure on July 1. You will see this change reflected on your August bill.

The new billing structure balances out a reduction in energy rates from \$0.14370 per kilowatt-hour to \$0.13026 per kWh, with the addition of a \$2.50 per kilowatt demand charge. Thus, it doesn't increase or decrease overall revenue for the cooperative. This change is designed to help members better manage their electricity bills by giving them more control over how and when they use energy. At the same time, it helps the cooperative manage the costs

of meeting peak energy demand, ensuring a more fair and efficient system for everyone.

The peak demand charge is based on each member's highest one-hour energy need (kW) during peak hours — 5 p.m. to 9 p.m., Monday through Saturday — within the monthly billing cycle. Most residential accounts have a demand reading between 3-5 kW.

If you have questions about this change, please visit our website at myelectric.coop, contact our office by email at sdcearates@myelectric.coop, or call our office toll-free, 844-395-2412.

CROSS DISCIPLINE ENGINEERING IN FIELD

Over the next few months, you'll see personnel from Cross Discipline Engineering out in the field working for SDCEA. Cross Discipline is working currently in the Querida area in Custer County, but you might spot them in other parts of our territory as well. Look out for this truck — they're a part of our trusted crew.

If you have any questions or need to verify someone on your property is from SDCEA, don't hesitate to reach out. Call us at 844-395-2412.

A NEW NAME: NOBLE RESOURCE GROUP

Integrity Tree Service, SDCEA's vegetation management contractor, has officially changed its name to Noble Resource Group. Noble will have visible logos marked on their vehicles and equipment.

If you have any questions or concerns regarding contractors working on your property or in your area, please do not hesitate to contact our office to confirm their representation of SDCEA.
